Significance: The U.S. Naval Base at Pearl Harbor was designated as a National Historic Landmark in 1964. As a Category 3 facility, it has been determined that Building No. 439 functioned as part of the Pearl Harbor Naval Base, but is only of minor importance to the historic character of the National Historic Landmark.

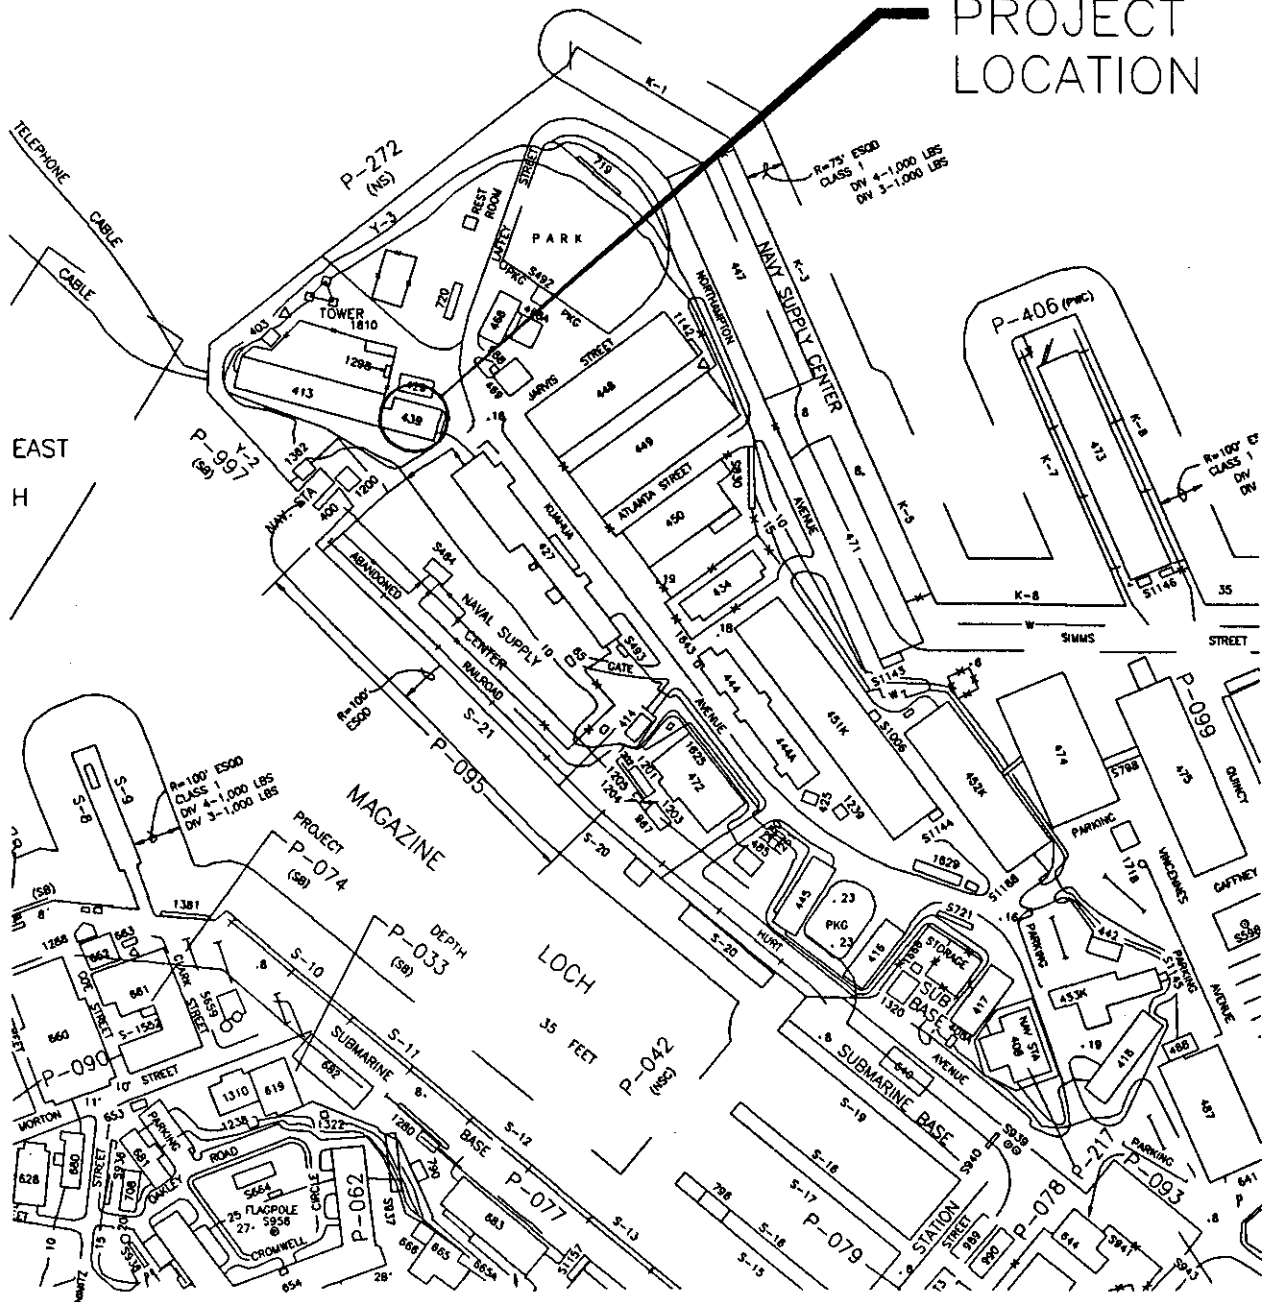

Description: Building No. 439 is a permanent single story concrete masonry unit structure located at Jarvis Street and Kuahua Avenue. The area of the building is approximately 7,100 square feet. Building No. 439 is abutted against Building No. 413.

History: Building No. 439 was constructed in 1923 as a mine overhaul shop and storage for torpedoes and mechanism. The building is currently used as a fuel maintenance shop by the Naval Supply Center. Plans for demolition of the existing building are included in Military Construction (MCON) Project P-115, which proposes to demolish the existing building and construct a new Intermediate Maintenance Activity (IMA) Facility.
